

according to 29 CFR 1910.1200 and 1907/2006/EC, Article 31

Date Printed: 12/20/2021 Version 11 Date Reviewed: 12/10/2021

Section 1: Identification of the Substance/Mixture and of the Company/Undertaking

- · Product Identifier: Formolon® Dispersion PVC Homopolymer
- · Synonyms: Dispersion/Paste Polyvinyl Chloride Homopolymer
- · Product Code:

F10, F24A, F28, F34, F74, FKVF, FKVH, FNVA

Discontinued Products: F25, F28A, F38, F38A, F1071, FNVW

· Product Use: Resin, extrusion and compounding, plastic molding, molded articles, films and coatings.

· Manufacturer/Supplier:

Formosa Plastics Corporation, Texas

201 Formosa Drive

Point Comfort, TX 77978 USA

+1 (361) 987-7000

E-Mail: MSDS@fpcusa.com

· EU REACH Representative: Intertek France

· **UK REACH Representative:** Intertek Testing Services (UK) Limited

· Business Division: Specialty (Dispersion) PVC

Emergency Telephone Number:

In case of a chemical emergency, contact CHEMTREC (24 hrs) at:

- +1 (800) 424-9300 (United States, Canada, Puerto Rico, Virgin Islands)
- +1 (703) 527-3887 (International & Maritime)

Section 2: Hazards Identification

· Hazard Classification:

Eye Irrit. 2B H320 Causes eye irritation.

.

- · Other Hazards: Combustible dust. May form combustible dust concentrations in air.
- · Hazard Pictograms: Not Applicable
- · Signal Word: WARNING
- Precautionary Statements:

P264 Wash thoroughly after handling.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if

present and easy to do. Continue rinsing.

P337+P313 If eye irritation persists: Get medical attention.

NFPA Ratings (scale 0 - 4):

Health = 0 Fire = 1 Reactivity = 0

· Additional Information:

Hazard classification H320 is listed according to GHS and OSHA HCS requirements. H320 is not an applicable EU CLP health hazard classification.

(Contd. on Page 2)

Safety Data Sheet according to 29 CFR 1910.1200 and 1907/2006/EC, Article 31

Version 11 Date Reviewed: 12/10/2021

Product Identifier: Formolon® Dispersion PVC Homopolymer

(Contd. from Page 1)

If you do not understand the hazards or safety precautions described in this data sheet, contact your supervisor or safety administrator before handling this product.

Section 3: Composition/Information on Ingredients

- · Chemical Characterization: Mixtures
- CAS No. Description

Date Printed: 12/20/2021

9002-86-2 polyvinyl chloride

>95%

SPVC Trade Secret Surfactant 1213

<1.5%

① Acute Tox. 4, H302; Acute Tox. 4, H312; Skin Irrit. 2, H315; Eye Irrit. 2, H319; STOT SE 3, H335

127087-87-0 α-(4-nonylphenyl)-ω-hydroxy poly(oxy-1,2-ethanediyl), branched

0.1-1%

Substances of Very High Concern (SVHC):

127087-87-0 α -(4-nonylphenyl)- ω -hydroxy poly(oxy-1,2-ethanediyl), branched

· Additional Information: CAS number 127087-87-0 is only used in the F24A and F34 grades.

Section 4: First Aid Measures

- · General information: Provide symptomatic and supportive care.
- · After Inhalation:

Remove victim to fresh air.

Administer oxygen if breathing is difficult.

Administer artifical respiration if breathing has stopped.

Get medical assistance if irritation or other symptoms develop.

After Skin Contact:

Wash affected area with soap and water.

Get medical assistance if irritation or other symptoms develop.

· After Eye Contact:

In case of accidental contact, immediately flush eyes with water.

Hold eyelids open to ensure adequate flushing.

Get medical attention.

After Swallowing:

Administer 1-2 glasses of water to dilute ingested material.

Never give anything by mouth to an unconscious person.

Get medical attention.

Most Important Symptoms and Effects: No further relevant information available.

Section 5: Firefighting Measures

- · Suitable Extinguishing Agents: CO2, extinguishing powder or water spray. Fight larger fire with water spray.
- · Special Firefighting Hazards: Combustible dust. May form combustible dust concentrations in air.
- · Dust Explosivity (Kst) Rating: St 1 Weak to moderate explosive dust (Kst = 0-200 bar-meter/second)

(Contd. on Page 3)

according to 29 CFR 1910.1200 and 1907/2006/EC, Article 31

Date Printed: 12/20/2021 Version 11 Date Reviewed: 12/10/2021

Product Identifier: Formolon® Dispersion PVC Homopolymer

(Contd. from Page 2)

Protective Equipment:

In the event of a fire, wear a NIOSH (USA) or CEN (EU) approved self-contained breathing apparatus (SCBA) and full protective clothing.

Section 6: Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures:

Avoid dust formation.

Restrict access to keep out unauthorized or unprotected personnel.

Wear appropriate personal protective equipment during all clean-up activities. See Section 8 for more information.

Avoid inhalation and direct contact.

· Environmental Precautions: Keep spilled material out of sewage/drainage systems and waterways.

· Methods for Containment and Clean-Up:

Collect spilled material using a method that controls dust generation such as a high efficiency particulate air (HEPA) vacuum.

Place waste in an appropriate container for disposal.

Use care during clean-up to avoid exposure to the material and injury from broken containers.

Section 7: Handling and Storage

· Precautions for Safe Handling:

Avoid inhalation and direct contact.

Avoid dust formation.

Accumulations of dust should be removed from settling areas.

Follow good engineering and work practices, including routine housekeeping.

Promptly clean up spills to avoid slip and fall hazard.

Protection Against Fires and Explosions:

Dust can combine with air to form an explosive mixture.

Take precautions against static discharge.

Transfer and store in properly bonded and grounded containers.

To determine required precautions, consult applicable standards such as NFPA 654, Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids (latest edition), and NFPA 499, Recommended Practice for the Classification of Combustible Dusts and of Hazardous (Classified) Locations for Electrical Installations in Chemical Process Areas.

· Conditions for Safe Storage:

Store in closed, properly labeled containers.

Protect containers from heat, physical damage, ignition sources and incompatible materials.

Have emergency equipment for fires and spills readily available.

· Specific End Uses: Resin, extrusion and compounding, plastic molding, molded articles, films and coatings.

· Additional Information:

If you do not understand the hazards or safety precautions described in this data sheet, contact your supervisor or safety administrator before handling this product.

Section 8: Exposure Controls/Personal Protection

Occupational Exposure Limits:

9002-86-2 polyvinyl chloride

EL (Canada) Eight-Hour Value: 1 mg/m³
WEL (Great Britain) Eight-Hour Value: 10* 4** mg/m³

*inhalable dust **respirable dust

TLV (USA) Eight-Hour Value: 1* mg/m³

*as respirable fraction

Exposure Controls: Use local exhaust ventilation during dust or mist producing operations.

General Protective and Hygienic Measures:

Wash thoroughly after handling. Avoid contact with the eyes and skin.

· Respiratory Protection:

An air-purifying respirator may be appropriate under limited exposure conditions.

Protection provided by air-purifying respirators is limited.

An industrial hygiene risk assessment is required to determine appropriate respiratory protection.

· Hand Protection:

Work gloves.

· Eye/Face Protection:

Safety glasses with side shields.

- · Body Protection: Protective work clothing
- Additional Information:

If unusual exposures are expected, an industrial hygiene review of work practices, engineering controls and personal protective equipment is recommended.

Section 9: Physical/Chemical Properties

 Autoignition Temperature: Not determined. Decomposition Temperature: Not determined. Lower Explosive Limit (LEL): Not determined. Upper Explosive Limit (UEL): Not determined. · Vapor Pressure: Not determined. · Density: Not determined. · Vapor Density: Not applicable. · Evaporation Rate: Not applicable. · Solubility in Water: Insoluble. · Partition Coefficient (n-octanol/water): Not determined.

Section 10: Stability and Reactivity

· Chemical Stability/Reactivity: Stable if used and stored according to the specifications listed below.

Not determined.

- · **Conditions to Avoid:** Keep away from heat, sparks and open flames.
- · Possibility of Hazardous Reactions/Incompatible Materials: No dangerous reactions known.
- · Hazardous Decomposition Products: No data available.

Section 11: Toxicological Information

- · Acute Toxicity: This product is not acutely toxic.
- · Skin Irritation: Based on available data, the classification criteria are not met.
- · Eve Irritation:

· Viscosity:

Causes eye irritation.

Eye irritant effects are based on extrapolation from the hazards of the ingredients combined with FPC USA's experience during occupational handling.

- · Respiratory Irritation: May cause respiratory irritation.
- · Sensitization/Allergic Reaction: No data available.
- · Subchronic/Chronic Toxicity: No data available.
- · Additional Toxicological Information:
- Substances Classified by IARC (International Agency for Research on Cancer):

9002-86-2 polyvinyl chloride: 3

Section 12: Ecological Information

- · Aquatic Toxicity: No data available.
- · Persistence and Degradability: No data available.
