**Re: General Declaration - Formolene® and Formolene FORMAX® Polyethylene Resins**

Dear Valued Customer:

Please be advised that Formosa Plastics Corporation, U.S.A. does not intentionally add any of the materials listed below during the manufacture of Formolene® and Formolene FORMAX® polyethylene resins. Furthermore, based upon our knowledge of the manufacturing process and information provided by our raw material suppliers, we would not expect these substances to be present in our final product. Analysis for these chemicals is not routinely performed. Please note that we cannot make any claim with regard to any products or components made from these resins.

**Food Allergens**

Formolene® and Formolene FORMAX® polyethylene resins do not contain allergenic ingredients such as tree nuts, peanut products, soybean products, egg products, milk products, fish, shellfish (e.g. crustaceans and products), wheat products (e.g. gluten), sunflower seeds, poppy seeds, sesame seeds, celery and products, mustard and products or sulfites.

**Genetically Modified Organisms**

Genetically modified organisms are not used in the formulation or manufacture of Formolene® polyethylene resins.

**Latex**

To the best of our knowledge, the materials used, manufactured, and processed for Formolene® and Formolene FORMAX® polyethylene resins do not contain natural latex rubber or dry natural rubber.

**Ozone Depleting Substances**

Materials listed in the Clean Air Act Amendments of 1990 (Class I CFC's, Class II HCFC's and the solvents, carbon tetrachloride and 1,1,1-trichloroethane) are not used in the manufacture of Formolene® and Formolene FORMAX® polyethylene resins.

**Heavy Metals**

These resins comply with the package requirements for heavy metals as set forth by the Coalition of Northeast Governors (CONEG), the California Toxics in Packaging Act and Article 11 of EU Directive 94/62/EC. Antimony, barium, cobalt, lead, cadmium, mercury, arsenic, and hexavalent chromium are not intentionally used in the formulation or manufacture of Formolene® and Formolene FORMAX® polyethylene resins. The incidental (non-intentionally added) concentrations of these heavy metals does not exceed 100 parts per million by weight.

## **EU Restriction of Hazardous Substances (RoHS, RoHS2, RoHS3) Directives 2002/95/EC, 2011/65/EU, 2015/863**

These resins meet the safety and regulatory requirements for certification under this standard. Formosa Plastics Corporation, U.S.A. does not intentionally add lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyls (PBB), polybrominated diphenyl ethers (PBDE) or any of the four designated phthalates (DEHP, BBP, DBP and DIBP) during the manufacture of Formolene® polyethylene resins.

### **California Proposition 65**

Some Formolene® Low Density Polyethylene Homopolymers may contain an ingredient (crystalline silica) that is known to the State of California to cause cancer when inhaled as an unbound airborne respirable particulate. However, this material is supplied in a mixture as pellets; inhalation of respirable crystalline silica is not expected under reasonably foreseeable conditions of use.

Additives and processing aid used in the manufacture of the Formolene® and Formolene FORMAX® polyethylene resins may contain chemicals listed under California Proposition 65.

### **Pentabromodiphenyl Ether and Octabromodiphenyl Ether**

Pentabromodiphenyl Ether and Octabromodiphenyl Ether are not used in the formulation or manufacture of Formolene® and Formolene FORMAX® polyethylene resins.

### **Phthalates, Bisphenol Compounds**

Phthalates (DEHP, DEP, DnHP, DBP, BBP, DINP, DIDP, DIBP, DNOP), Bisphenol A, Bisphenol B and Bisphenol S are not used in the formulation or manufacture of Formolene® and Formolene FORMAX® polyethylene resins.

### **Glycidyl Ethers (BADGE, BFDGE, NOGE) – Epoxy Derivatives**

Bisphenol A Diglycidyl Ether (BADGE), Bisphenol F Diglycidyl Ether (BFDGE) and Novolac Glycidyl Ether (NOGE) are not used in the formulation or manufacture of Formolene® and Formolene FORMAX® polyethylene resins. To the best of our knowledge, these resins are in compliance with Regulation (EC) No. 1895/2005 for epoxy derivatives.

### **Azodicarbonamide/Azobisformamide (ADA), Butylated Hydroxyanisole (BHA), Butylated Hydroxytoluene (BHT) and Tertiary Butylhydroquinone (TBHQ)**

Azodicarbonamide/Azobisformamide (ADA), Butylated Hydroxyanisole (BHA), Butylated Hydroxytoluene (BHT) and Tertiary Butylhydroquinone (TBHQ) are not used in the formulation or manufacture of Formolene® and Formolene FORMAX® polyethylene resins.

### **Organotin Compounds**

Organotin compounds are not used in the formulation or manufacture of Formolene® polyethylene resins.

### **PFAS, PFOA, PFOS, PFHxS and DMF**

Per- and Polyfluoroalkyl Substances (PFAS), Perfluorooctanoic Acid (PFOA), Perfluorooctanesulfonic Acid (PFOS), Perfluorohexanesulfonic Acid (PFHxS) and Dimethyl Fumarate (DMF) are not used in the formulation or manufacture of Formolene® and Formolene FORMAX® polyethylene resins.

**Mineral Oil Aromatic Hydrocarbons**

Mineral Oil Aromatic Hydrocarbons (MOAH) or Mineral Oil Saturated Hydrocarbons (MOSH) are not intentionally used in the formulation or manufacturer of Formolene® and Formolene FORMAX® polyethylene resins.

**Melamine**

All Formolene® and Formolene FORMAX® polyethylene resins are free of melamine.

**Animal Derived Materials (incl. BSE/TSE)**

All Formolene® and Formolene FORMAX® polyethylene resins are free of animal derived materials (ADM), except an ingredient used to manufacture Formolene® HB5202A polyethylene contains substances derived from animals. However, these resins meet both European Union and U.S. Food & Drug Administration standards for being free from contamination with Bovine Spongiform Encephalopathy (BSE) and Transmissible Spongiform Encephalopathy (TSE) agents. Also, to the best of our knowledge, all materials used in cleaning and validation are similarly compliant.

As always, *You expect more. And Formosa delivers®*. If you have questions, please contact your Sales or Customer Service Representative.

Sincerely,

/s/
